

Right now, around 85 million people around the world have been made homeless by natural disaster and conflict. The charity ShelterBox is working to change this. By providing emergency shelter and tools for families robbed of their homes by disaster, ShelterBox is transforming despair into hope.

We all want to see a world where no family is left without shelter after disaster. Recovery starts with shelter. Having somewhere dry and warm to sleep, to prepare meals and be with one's family is vital for starting the long process of rebuilding lives.

Emergency shelter offers privacy and helps to preserve dignity. It offers protection from the elements, animals and disease. It helps keep communities together. It can help to bring back a sense of normality, allowing children to go back to school.

Most importantly, it empowers families to start the process of getting back on their feet.

From Heel to Toe

The Tandem Team will ride, walk and push their way up hill and down dale, including right over the middle of Dartmoor! Each day the route will be re-calculated to take into account, road works, heavy traffic etc. It could be that the estimated 360 miles might be considerably more!

Every day will be a major challenge!

However, every night they will stop at the towns indicated below where accommodation has been kindly arranged by our main sponsors Clive Emson, Land and Property Auctioneers.
